

The diagram shows a rectangular layout with a light blue background. A solid black border represents the 'cooler size 210x110'. Inside this, a dashed magenta border represents the 'safe area 190x100'. Two vertical dashed orange lines, spaced 105mm apart, represent the 'centre to centre' dimension. A legend in the center explains these dimensions.

Dimensions in millimetres - WxH

— — safe area 190x100

— — cooler size 210x110

— — bleed 220x120

— — centre to centre 105mm
